Re: Property located at 1645 Railroad Avenue, St. Helens, Oregon
(formerly Owens Corning Fiberglass Corp.)
EPA ID No. ORD093476109

Dear Mr. Lalande:

The U.S. Environmental Protection Agency (EPA), through its contractor, PRC Environmental Management, Inc. (PRC), has reviewed files and other pertinent information for, and visited the referenced site. Based on this review, EPA does not anticipate further investigation under the Federal Superfund Program. A copy of the report prepared by PRC is enclosed.

EPA recommends that the piles of contaminated soil and any remaining soil contamination near the Quonset hut be assessed and removed under the appropriate local regulatory authority.

If you have any questions, I can be reached at
(206) 553-4961.

Sincerely,

Deborah G. Robinson
Environmental Protection Specialist
Superfund Response & Investigations Branch
